

Phase I registration starts November 9 and we've held group advisement for all class tiers. Now is the time to get your desired and back-up course schedules organized so that when your time-ticket is active, you'll be ready to go! If you are trying to register for a non-MSE course and receiving an error message, it's usually due to being a non-major, lacking the course prerequisite, or the class is full. You have the option to submit a Major/Override/Overload permit to request entry into the class. Some Schools invoke restrictions on certain classes so that their students have priority to register. During Phase II Registration some restrictions may be removed if additional seats become available. Before trying to register for a course, check in [OSCAR](#) for prerequisites, and then verify in your Degree Works to see if you have the appropriate prerequisite(s). Unfortunately, MSE cannot issue Permits/Overloads for non-MSE courses. If you can't get into a class during Phase I, you can try during Phase II Registration (January 8-22, 2021). The maximum hours you can register for during Phase I is 18hrs. You can pick up additional hours during Phase II if needed.

## MSE PERMIT REQUESTS

Please include the following with your requests:

- Name
- Tech ID number
- Course Name/Number/CRN#/Section Number
- Request explanation

If you've received an error when trying to register for a MSE class although you're an MSE major it might be due to the following:

- Missing prerequisite(s) (excludes if you're currently in class)
- Showing as outside major (if you haven't processed a Change of Major form yet)
- Overload Error - the class is full

An explanation and instructions will be given once you've submitted your requests/inquiry to [registration@mse.gatech.edu](mailto:registration@mse.gatech.edu).
